| **Collaborate with local Daycare Center nearby Irvine Campus** | To enhance strategic plan Goal 1: develop and maintain a curricular and co-curricular environment that prepares students for participation in a global society and is responsive to workforce needs, we propose to facilitate the transition from academia to careers for our students at CSUF. **Advantages:**  
- May benefit for both students and employees  
- May help working students continue studies with less stress and diversion  
- May increase the employment opportunities and/or internships for the students in Child and Adolescent or any related majors |

| **Smaller Classroom Sizes are a Big Draw for Students** | To enhance the strategic plan Goal 2: Improve student persistence, increase graduation rates University wide, and narrow the achievement gap for underrepresented students, we recommend to establish a small size class model at Irvine Campus. **It will promote:**  
- Closer connection with professors  
- Students with disabilities or special needs to receive better service  
- Students with social anxiety feel calmer and are better able to express themselves in classroom. |

| **Offer More Major Classes and provide more major advising services at Irvine Campus** | To echo the strategic plan Goal 3: Recruit and retain a high-quality and diverse faculty and staff, we suggest to offer more complete majors and increase the major faculty advising services at Irvine Campus. **It will encourage**  
- To draw more local population.  
- The major advisement quality.  
- The connection between the advising of the main campus and Irvine campus.  
- The awareness of evaluating and measuring the advice given at the two campuses |
| Make CSUF, Irvine Campus a Premiere higher educational branch campus within the Local Community | To enhance the strategic plan Goal 4: Increase revenue through fundraising, entrepreneurial activities, grants, and contracts, we believe that the following action should be acted:  
- Use the Irvine Campus to strategically recruit high profile donors within south Orange County.  
- Develop Larger Signage or Banners to post outdoor/indoor campus areas “Titans Reach Higher” and “CSUF, Irvine Campus”. Current signage does not look collegiate or CSUF related.  
- Promote Open House for Community Colleges transfer students once a year.  
- Place Ads at Irvine Spectrum Shopping Center (e.g., movie theatre, outdoor marketing displays) “Shop here. Get your education here.” Publicize at nearby Metro and iShuttle stop points within a 5-10 mile radius of campus |
| Suggestions: | • Healthcare Services Offered at Irvine Campus, or contract with local hospitals, so that $78.00 Health Center fee is better utilized by Irvine students. On average there are 375 Irvine only students each semester who are solely enrolled at Irvine. That’s $28,125/academic worth of fees not being spent on students enrolled at Irvine and could fund limited Irvine Campus health center services to start.  
• Irvine Campus needs a cafeteria, or we should reach out to local businesses |
